

# Sharpen your web skills in our Web Design world!

New Thursday ComputerXplorers club at Farnborough Primary open for registrations now!

## ComputerXplorers

ComputerXplorers leads the way in providing technology-based activities that are both inspirational and aspirational. Our unique brand of engaging and educational programmes are always hands-on with plenty of fun and interaction. We encourage 'e-confidence' in children in an age when computers and technology are essential life skills.

### Web Design!

In this course, the students will use the online website creation tool, Weebly for Education, to create a five page fanzine about one of their favorite things. Their fanzine might be about a favorite musician, artist, writer, restaurant, or place. Working in teams, the students will select the topic for their fanzine. They will name it, research it, write stories for it, and add images and videos. The fanzine teams will use a research journal created with Microsoft Word to collect information for their fanzine. They will also write HTML code to put their own twist on the fanzine's final page.

**Register by Friday 15 September**

**Please note that this will be a popular course so to save disappointment book online early.**
