

Sewing Club Y3

By Katerina Strelcova

Dear Parents/Carers,

I would like to announce that the Sewing Club will be running for the next term, therefore I would like to invite boys and girls from the current Y3 to join the club.

The aim of the Sewing Club, is to help children to learn to use needle and thread, fabric, scissors, learn different stitches, plan the work step by step whilst gaining confidence, and progress their skills and abilities at the same time as having fun. From the other perspective it has been proven that sewing helps improve motor skills, concentration and by praising the needlecraft work, build up the child's confidence.

The lessons will run from 24th April, 1st May, 8th May, 15th May, 22nd May on Tuesdays, during the lunch break (12:30 - 13:15) and the price is £10 to cover cost of materials and sewing tools.

There will be limited number of children in the club to 10.

If this activity is of interest of you and your child, please complete our booking form and return it with the relevant payment to secure a place (due to the limited spaces available, we will operate on a first come, first serve basis).

Kind regards,

Katerina Strelcova
