Since 1987, Wizard Video Productions has led the way in video production services for schools & dance schools all over the UK.

Performing on stage can be a proud and magical, if nerve-wracking, experience and it is so exciting to see your family watching from the audience. But you never get to watch yourself on stage!

Children and Adults alike love to see themselves on screen and Wizard love to provide professional DVDs of your show to allow you and your friends & family to experience the thrill of the performance all over again.

Love to find out more about our filming services? Go to our website or scan the QR code to take you straight there.

Wizard also offer a service to transfer your old family tapes onto DVD. Do you have old home video footage that you would like to preserve?
