

The children have worked incredibly hard this year and have produced amazing pieces of written and creative work. To celebrate all of their achievements we are very pleased to announce some exciting opportunities for the children this summer term.

Vocabulary Parade – Friday 7th June 2019.

As a school we have been focussing on developing the children's use and understanding of higher order vocabulary across English and all areas of the curriculum. As a celebration of the wonderful vocabulary the children have been learning this year we are going to be asking the children to come to school dressed in a way that represents their favourite word. The children will take part in vocabulary based activities within their key stages as well as showing off their fantastic costumes in a vocabulary parade with the opportunity to win prizes for the most imaginative and exciting costumes. We will be taking pictures of the children as their words to make our very first Farnborough dictionary.

enabling enterprise

Challenge day-Thursday 11th July 2019. enabling students to succeed through enterprise

As part of our Topic curriculum, we have been developing skills that will prepare the children for their future as young adults and working adults. To celebrate and show these skills we will be taking part in a challenge day. This day involves the core skills that we have been teaching throughout the year. These include: problem solving, leadership, team work, listening, presenting, creativity, staying positive and aiming high. We are fortunate to have a representative from Enabling enterprise to come to our school and support us for this day. The children will have the opportunity to show these skills through the work they do during this day, to meet a challenge specification. The challenge is called 'game on' and we are all excited to see what the children produce. To support this day we ask for a voluntary contribution of **£3 per child.**

Science Fair- Friday 12th July 2019.

In order to celebrate the exciting Science that has been taking place in our school this year, we are pleased to announce our first ever Farnborough Science Fair! This will be taking place from 1.45- 3.00. During this time, our Young Science Ambassadors will be demonstrating a selection of some of the experiments that they have carried out during Science Club in the school hall. In the classrooms the rest of the school will be presenting examples of their practical Science. We look forward to welcoming as many of you as possible to be inspired by our future budding Scientists!

Talent show- Thursday 18th July 2019.

We are very fortunate that our children have such a wide range of talents. To celebrate these, we are holding a talent show for the whole school. Each child or group of children will be asked to share a talent of their choice. This can include: music, sports, magic tricks, gymnastics and comedy etc. The talent show will take place in two rounds. The first round will include each child or group of children performing to their key stage. A vote by other children and staff members will determine who goes through to the final round. The final round will take place on Thursday 18th July in front of the whole school. Each class will have 2 representatives to take part in the final round. Children can practise during their play times and lunchtimes if they wish to. We are happy to provide music for the children on the day, should they require this. Please ensure the lyrics are suitable for the performances.

There will be more details to follow about this exciting talent show. We can't wait to see and hear all of the children's amazing talents!
