SEIZE THE SUMMER AND BEYOND

At Explore Learning we believe that progress shouldn't stop at the end of term and, crucially, research shows it shouldn't either. In fact, 71% of parents think that their children's abilities drop by the time the new school year starts.

That's why we've developed a jam-packed summer programme of courses, workshops and activities to give your child the best start to the new school year.

So whether you're looking for a way for your child to make progress, develop in confidence or inspire their talents, the summer is the perfect time to get started.

CHILDREN SUPPORTED LAST SUMMER

Research conducted by Explore Learning with parents of children aged 4-14

AWARD-WINNING MATHS & ENGLISH TUITION

Keep their BRAINS ACTIVE

We ensure academic and social progress all year round.
Balancing the mastery of new skills alongside the retention of existing skills, our curriculum allows every child to be stretched and challenged, at a pace that's right for them.

Give them A HEAD START

Is your child looking to sit the 11 Plus, a local entrance exam or move up a set in school?
Our individualised approach means that we support children of all abilities to achieve their goals and reach their full potential.

Build their CONFIDENCE

96% of parents saw greater confidence in their child as a result of coming to Explore Learning.
From giving children the confidence to put their hand up, to making friends, or learning that sometimes it's OK to make mistakes - we ensure children have the determination and self-belief to tackle anything.

Ignite their IMAGINATION

Reluctant learner? Classroom daydreamer? Knowledge seeker? We bring learning to life!
Our inspiring tutors will spark their imagination and keep them engaged with ongoing praise and rewards, changing their attitude towards learning.
