STEM Sparks is a group of STEM enthusiasts.
We seek to bridge the skill gap and prepare the future generation, with our exciting and creative STEM workshops/after school clubs.

Our Science, Technology, Engineering, and Maths (STEM) Workshops are designed to promote fun learning for all kids.

Within the next 15 years, it is expected that 40% of jobs will be lost to automation!

The skills obtained during our STEM clubs will pave the way for your child's future in our technologically advancing world. Give your child the boost they need this year!
