

Year 3 Activities Week commencing - 8.6.20

	Monday	Tuesday	Wednesday	Thursday	Friday
Morning activities					
English 	Complete work set on the PowerPoint				Science Day
Guided reading 	Complete work set on the PowerPoint				
Exercise 	Pick an activity from the slide on the PowerPoint, or choose your own 30 minutes of exercise.				
Maths 	Complete work set on the PowerPoint				
Reading (independent learning) 	Read for 15 minutes independently.				
Afternoon activities					
Handwriting 	Complete work set on the PowerPoint				Science Day
Afternoon activity 	Go on a virtual school trip on the day's PowerPoint.	Complete the Topic lesson on the day's PowerPoint.	Complete the French lesson on the day's PowerPoint.	Complete the Art Festival lesson on the day's PowerPoint.	

 **The Talking Tree**

Listen! Can you hear that? There is a faint murmuring coming from deep within the Giraffes wood. Right at the back, where night is at its darkest, (ssshh) I can hear the hush of softly spoken whispers, like they're sharing a secret.

Standing next to a tall skinny tree with my binoculars from the Night Zookeeper kit, I scan the shifting shadows hoping that Spying Giraffes will appear so that I can ask them about the alarms that sound at night. When all of the sudden, the tall skinny tree sways backwards and forwards (even though it isn't a windy night), and then speaks to me!

“Hello Night Zookeeper” says the tree. Now, there are many strange things in the Night Zoo but I must admit I have never met a speaking tree before. I look up and discover that it isn't a tree at all, it is a Spying Giraffe!

1. Why does the Night Zookeeper have a pair of binoculars?
2. What happened to the tree when the Night Zookeeper rested against it?
3. How would you feel if a tree spoke to you? Explain your answer.

Have a look at home for an object that might come to life -what do you think it might say to you?

Write a short dialogue between you and the object - don't forget to use speech marks.

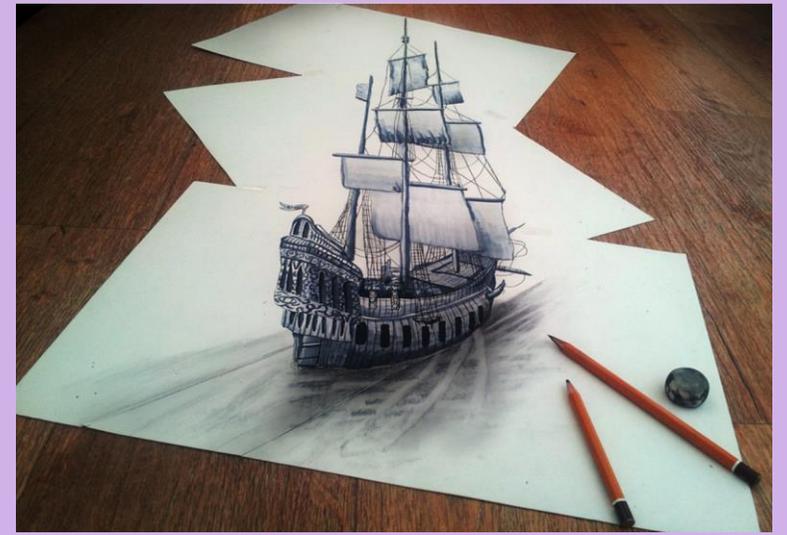

E.g. "Hello Night Zookeeper" said the giraffe.

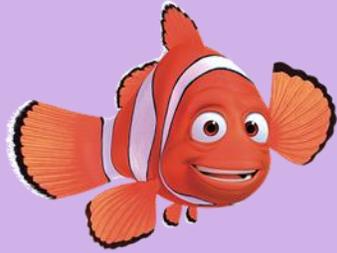

Guided Reading

Sick sentences!

These sentences are 'sick' and need help to get better. Can you help?

George drew a picture. It was a ship.

Active Learning

Farnborough Dance Routine

Mrs Humphries has created our very own Farnborough Dance Routine!

It has five parts and every day this week we are doing this as our active learning.

Click on the link below:

<http://farnboroughprimary.co.uk/farnborough-dance>

Maths

Complete the coloured work you would normally do in class. If you want to try the other challenges, please feel free 😊

Purple group: challenge one

Blue group and green group: challenge two

(blue group, you can also finish off your maths workbook if you haven't already, one page for each maths lesson instead of or as well as the challenge)

Orange group and red group: challenges two and three

Challenge One

We are building our maths knowledge.

I can show 46p using 10p
and 1p coins.

PROVE IT!

Product Code: MA10034 - 02 - 18 Made in UK

True or false?

There are eleven different pairs of
numbers with a total of 11.

PROVE IT!

Product Code: MA10034 - 02 - 18 Made in UK

Challenge Two

Card tricks

Chico's cards are all different.
There is a number from 1 to 8 on each card.

Chico has chosen four cards that add up to 20.

What are they?

There are seven different possibilities.

Try to find them all.

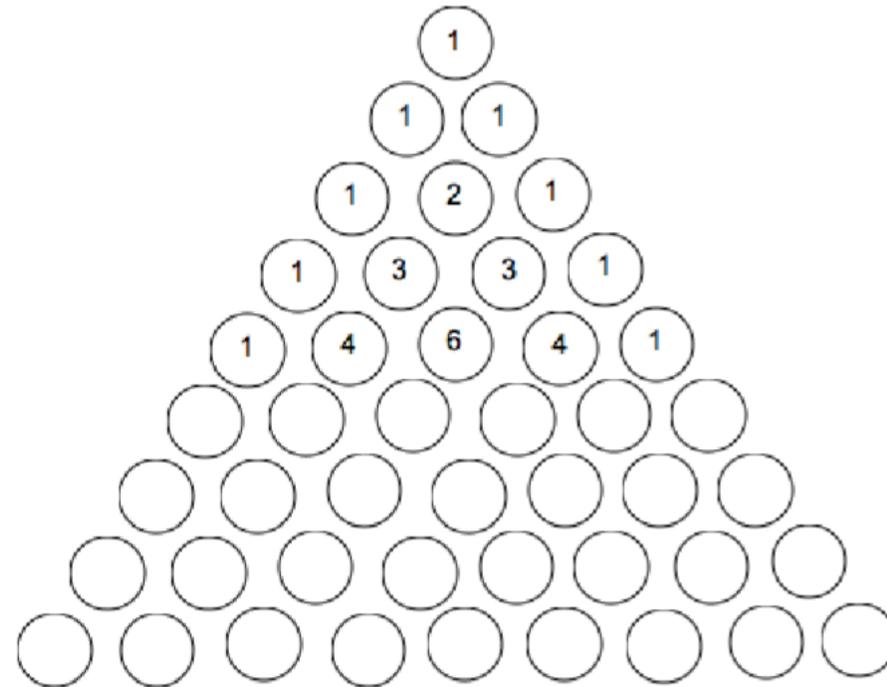

What if Chico has three cards that add up to 16?

Challenge Three

**Blaise Pascal's
Birthday: 19th
June**

Blaise Pascal was a French mathematician, physicist, inventor, writer and Christian philosopher. He was a child prodigy who was educated by his father, a tax collector in Rouen.

This is Pascal's Triangle:

1. How is the triangle made?
2. Complete the next 4 rows of the triangle.
3. Find the sum of each row. Can you see a pattern?
4. Can you see any other number patterns in the triangle?

Reading Independently

Read for at least 15 minutes independently. You can read a book of your choice.

If you would like to read ['The Week Junior'](#) follow this link.

If you would like to read [an online book](#), follow this link.

Carnival of the Animals

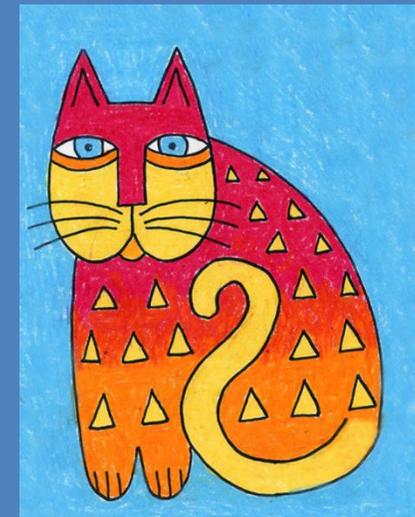

An Art festival

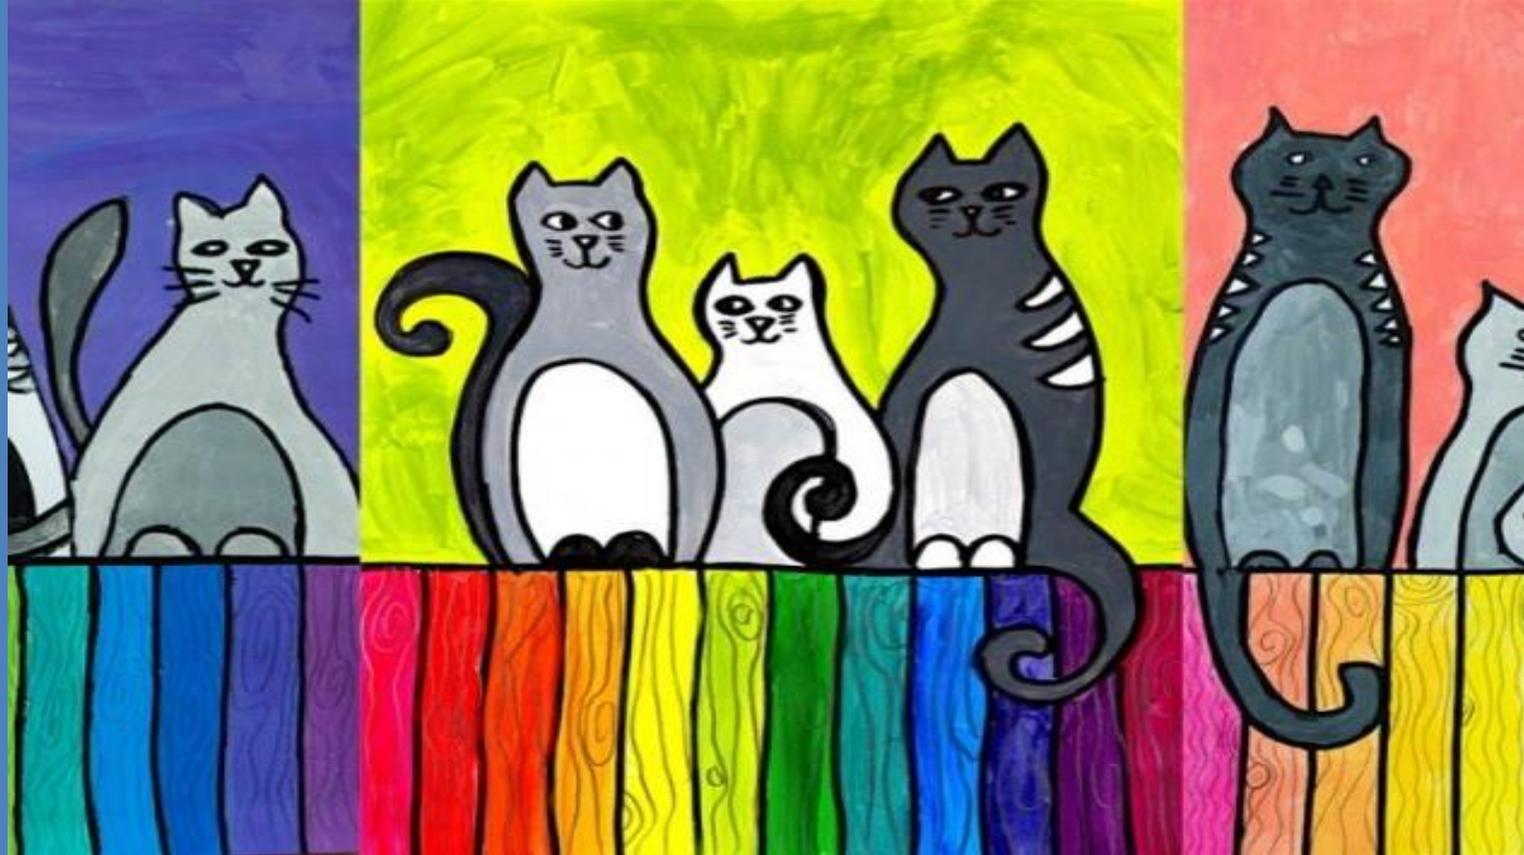

For the next few weeks we are going to run a series of art lessons based around animals.

So whether you are working at home or in school you can create some great pictures. We would like to fill the Farnborough Art Gallery with your work to create a "Carnival of the Animals."

If you are home learning, you can scan your work and send it in to your teacher.

Good luck, have fun and we want you to be creative, so if you have your own ideas we would love to see your artwork!

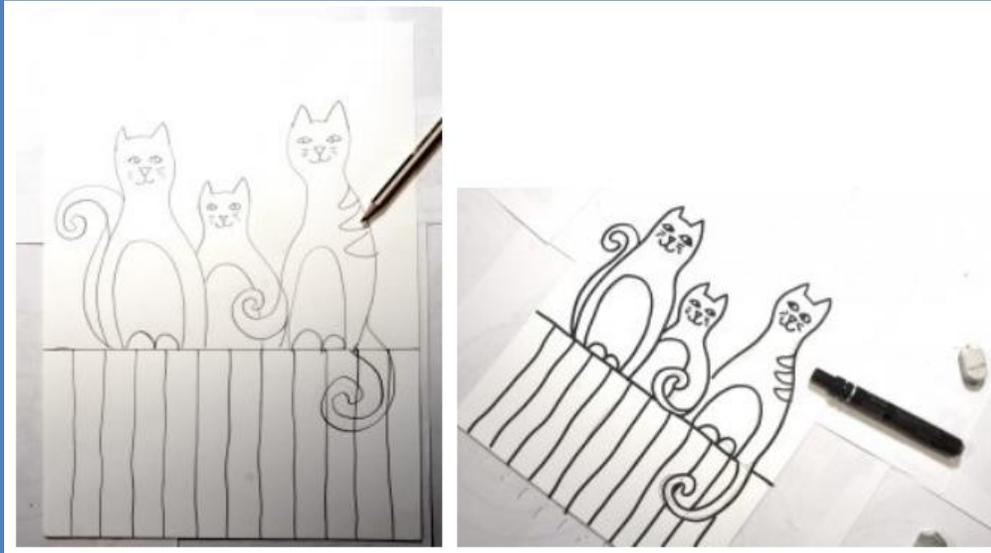

Cats on the Fence

Can you see that in these pictures primary colours and secondary colours are used for the fence and the neutral colours for the cats? For this activity you can use paint, felt tips or coloured pencils. It's up to you!

First draw the fence made from around 12 planks, each one about 2 cm wide with a pencil. Then draw three or more cats, with simple lines and stylised shapes.

Next retrace the lines so they stand out. If you plan to use paint you will need to use a black permanent marker such as a sharpie or if using pencil you can use a felt tip.

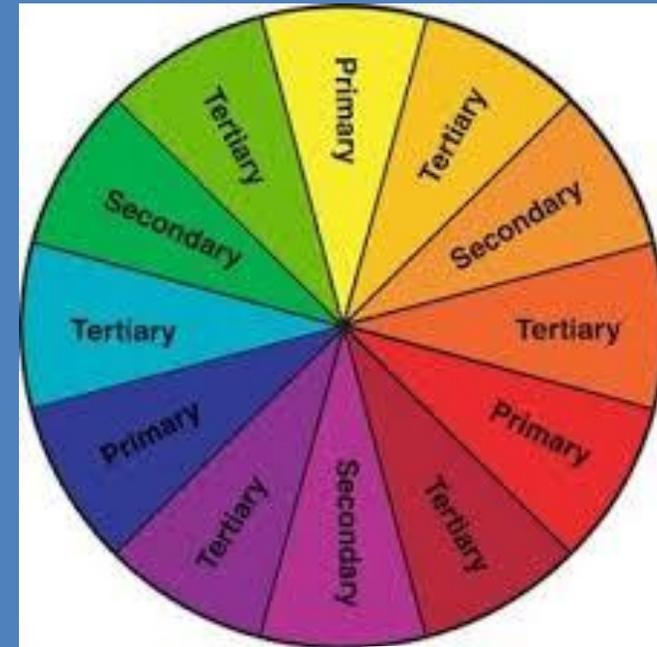

Top Tip: If outlining in black felt pen leave outlining to the end, so you don't get black felt tip pen on the other colours.

An idea for you to try....

Use the 12 planks as if they were the 12 wedges of the colour wheel: Start by painting the primary colours, and then mix the paints two by two creating secondary colours. The tertiary colours are created mixing a primary with a secondary colour. Use the colour wheel to help you.

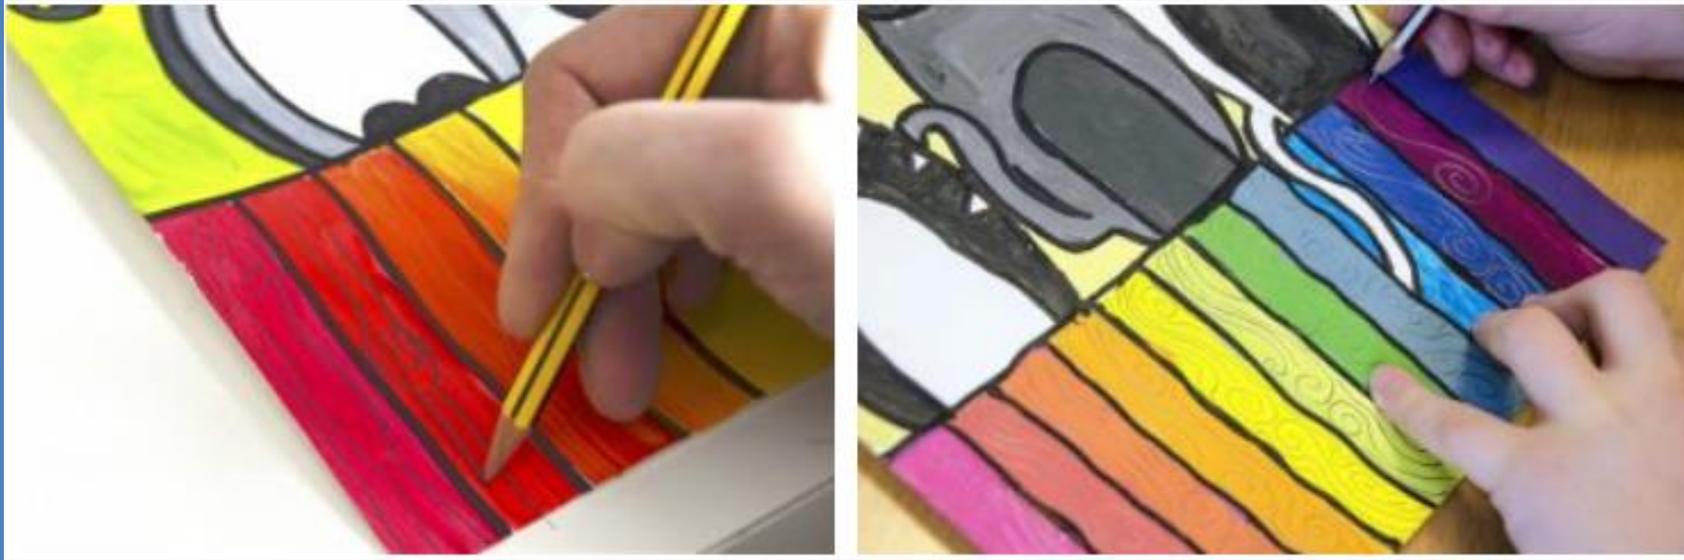

Or just colour as a rainbow, it's your picture, so your choice!

The cats are painted with a neutral colour. If using paint, create a scale of 5 or 6 different greys just mixing black and white. The background is painted with a solid colour.

At the end, if you have time, you could retrace the lines with a black permanent marker, covering possible flaws on the edges, and draw the wood grain of the planks with a pencil. It's up to you!

Good Luck and enjoy!
