SHACKLETON'S JOURNEY

William Grill
FLYING EYE BOOKS

CILIP Kate Greenaway Medal winner

AOI Illustration New Talent Award winner

"I felt strangely drawn to the mysterious south. I vowed to myself that some day I would go to the region of ice and snow, and go on and on 'til I came to one of the poles of the Earth, the end of the axis on which this great round ball turns."
— Ernest Shackleton

Beautifully illustrated by William Grill,
Shackleton's Journey is the epic true story of how Shackleton and his crew managed to survive crossing the frozen heart of Antarctica, and a testament to their great courage and endurance.

"William Grill eschews panels for wonderfully immersive spreads. A book that captures the rewards and trials of polar exploration in great style."

EQUIPMENT AND SUPPLIES

As well as supporting a crew of 28 men and 69 dogs, *Endurance* carried a large amount of cargo. Journeying into the heart of Antarctica meant that Shackleton would need to carry a whole array of exploration equipment and supplies to keep him and his crew alive in hostile conditions, from sledges and skis to blankets and mitts.

Just before departure, Shackleton was presented with the Union flag by King George V, who encouraged him to bring it back safely.

SETTING SAIL

Endurance set sail for Buenos Aires on Saturday, 8 August 1914, after receiving a telegram from the Admiralty which simply read, "Proceed".

As people lined the docks, they were filled with excitement, pride and wonder.

Why are people fascinated by explorers and adventurers?
