# SHACKLETON'S JOURNEY

William Grill  
FLYING EYE BOOKS

CILIP Kate Greenaway Medal winner  
A New York Times Best Illustrated Book  
AOI Illustration New Talent Award winner

"I felt strangely drawn to the mysterious south. I vowed to myself that some day I would go to the region of ice and snow, and go on and on 'til I came to one of the poles of the Earth, the end of the axis on which this great round ball turns."  
— Ernest Shackleton

Beautifully illustrated by William Grill,  
*Shackleton's Journey* is the epic true story of how Shackleton and his crew managed to survive crossing the frozen heart of Antarctica, and a testament to their great courage and endurance.

"William Grill eschews panels for wonderfully immersive spreads. A book that captures the rewards and trials of polar exploration in great style."

## STROMNESS WHALING STATION

The men had now been moving non-stop for over 36 hours. Then, in the distance, the vague shape of Husvik harbour emerged like a beacon of hope. Upon sighting the harbour, the men shook hands with one another in silence.

All that separated the men from their sanctuary was a huge snow slope that seemed to end in a **precipice**. It was either this route or a five-mile walk to get around the drop. Without too much thought, they went for it, crashing and sliding down together. Their clothes shredded, and stripped of all their belongings, they had arrived.

The manager of the station, Mr Sorlle, came out to see what the fuss was about, but did not recognise the exhausted, broken men in front of him until one of them explained, "My name is Shackleton." Then Sorlle immediately reached out to the men and took them inside.

Sorlle was a most gracious host, and saw to it that the men had plenty of food, drink and hot water to bathe. A boat was sent to King Haakon Bay to pick up the three men who had been left behind. Once they had recovered, the men all sat together and discussed immediate plans to rescue their friends on Elephant Island. To save them, Shackleton would need a vessel strong enough to break through the pack ice, with enough fuel to return to land. Luckily, the Chilean government lent Shackleton a steam-powered ship called the *Yelcho*.

## RESCUE

Finally, on 30 August 1916, help arrived for the men on Elephant Island after three failed attempts to reach the island due to heavy ice. The moment that the rescuers spotted the camp, the men on the island rushed to the shore, frantically waving and calling in joy. Shackleton shouted, "Are you all well?" and Wild answered, "We are all well, Boss," followed by the cheers of the whole crew. Shackleton had arrived just in time, as the men were weak and frail. By a miracle, Wild had kept hope alive.

## DEPARTURE

Worried about being trapped by the ice, Shackleton had his men hastily rashed aboard, fired the little steamer's engines and headed north for South America. The men all agreed that they would honour and remember 30 August for the rest of their lives.

Exhausted and glad to be alive, the crew steamed away on the *Yelcho* while Wild recalled stories of their life waiting on the island. The men would later receive a hero's welcome in Punta Arenas, Chile, where 30,000 people filled the streets warmly awaiting their return.

Against all the odds, Shackleton had ended his expedition without losing a single member of *Endurance's* crew.

## HOME AT LAST

In memory of all the brave men and dogs who ventured south on  
Shackleton's journey;

"I chose life over death for myself and my friends ...  
I believe it is in our nature to explore, to reach out into the  
unknown. The only true failure would be to not explore at all."

— Ernest Shackleton

## Shackleton Makes it Home

Shackleton's achievements were unbelievable. To keep all his men alive over those years seemed like an impossible task. He returned a hero and what do we do when a hero returns?

We have a party of course.
