

Welcome back Elves!
We hope you enjoyed
Sports Day on Friday.
If you haven't already
done so, please send
in your scores to
[sportsday@farnborough.
bromley.sch.uk](mailto:sportsday@farnborough.bromley.sch.uk)

I'm looking forward to hopefully seeing lots of you at our Storytime Zoom session at 11:00 this morning

Watch the animation on the next slide to remind yourself of how to keep safe online

Spellings

This weeks spellings are posted on the Year 1 Learning page to learn.

Your grown up can carry out the spelling test on Friday!

Happy Spelling

It's Monday!
The Snail

and the
Monday 22nd June 2020
Whale

Here's your work for today...

Physical activity -
minimum 30 minutes each day

Link to resource

5 a day

User Name: FPS53 / Password: JFz4XqG7

<https://player.5-a-day.tv/>

Joe Wicks - PE sessions

<https://www.youtube.com/channel/UCAxW1XT0iEJo0TYIRfn6rYQ>

Cosmic Kids Yoga

<https://www.youtube.com/user/CosmicKidsYoga>

PE Hub Parents Portal

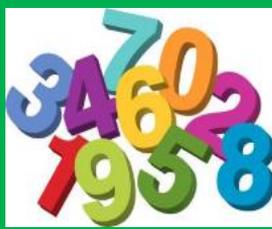

<https://pehubportal.co.uk/>

Go Noodle

<https://www.gonoodle.com/good-energy-at-home-kids-games-and-videos/>

Go for a walk/run.

You must go with an adult from your home and make sure you stay 2 metres away from other people.

Maths

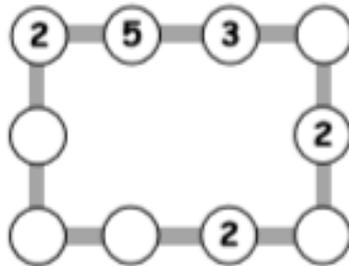

The Snail and the Whale need your help with this Maths investigation.....

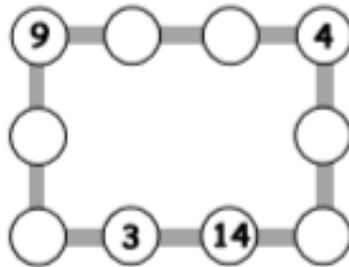

Maths

Number lines

1. Make each line add up to 16.

2. Make each line add up to 20.

3. Make up your own puzzle like this.
Ask a friend to do it.

Remember to use
Practical resources
to help you!

You can write your answers in your exercise books.

If you would like to try Gruffalo work, complete question 1 across and 3 down

If you would like to try Horrid Henry work complete all across questions

If you would like to try James and the Giant Peach work, complete all questions

Farnborough's Race across the World

Results up to Monday 15th June

Class	Number of kilometres covered	*Which country did your class reach? From Farnborough School to
Pixies	1982 km	 Romania
Elves	1394 km	 Croatia
Unicorns	1553 km	 Algeria
Phoenix	1316km	 Croatia
Pegasus	 4099 km	 Nigeria
Giants	1981 km	 Morocco
Griffins	 2170 km	 Romania
Centaur	 2379 km	 Greece
Dragons	1569 km	 Algeria

Map of Europe
Which country did your class reach?

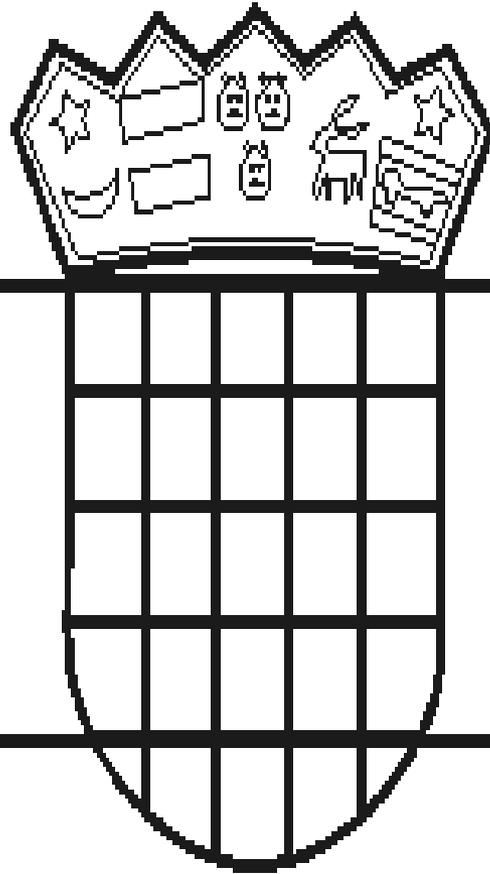

We have reached..... **CROATIA**

This is the Croatian flag. Can you find other flags which have the same colours as the Croatian flag?

On the next page, can you create a Croatian flag.

Croatia

Today you're going create a water volcano in a bottle!

Water Volcano in a Bottle

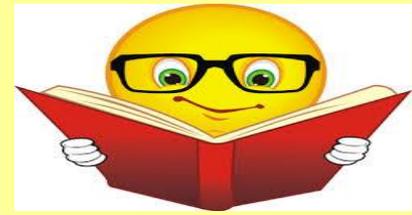

You will need:

- 2l plastic bottle
 - Balloon
 - Water

1. Put the balloon inside the bottle and stretch the end around the opening. Try to blow up the balloon- you won't be able to!
2. Cut a $\frac{1}{4}$ inch hole in the side off the bottle and try again. The balloon will inflate as the air inside the bottle can escape through the hole. If you put your finger on the hole it will lock the pressure and keep the air inside.
3. While the balloon is blown up (with your finger over the hole) fill the balloon with water.
4. When you're ready, move your finger to start the water volcano!
5. Put the lid on your bottle to keep the balloon inflated without having to cover the hole. The balloon needs both holes uncovered to deflate!

Reading online

I'm so impressed with your reading Elves.
You should be very proud of yourselves!

Please log on to Bug Club
Read for at least 15 minutes.

Please read the key words inside the front cover first.
When you find the bug questions, click and complete them.

Please note down the books you've read in your reading
record book.

Your personal login details are on the
inside of your reading record book.

TIMES TABLES

ROCK STARS

Are you ready to Battle?

Back by popular demand - The Battles will begin 8.30am to 2pm on Tuesday 16th June and every Tuesday until the end of term. Therefore, practise your tables to build up your timetable strength and become the Times Tables Legends you are! This is a different battle to the following slide.

<https://ttrockstars.com/>

This battle is for the whole school. This is an optional activity and Year One children are just beginning to learn about multiplication and division. If your child is beginning to practise, they may like to give it a go. Good luck!

Join us to celebrate Maths Week London 2020!

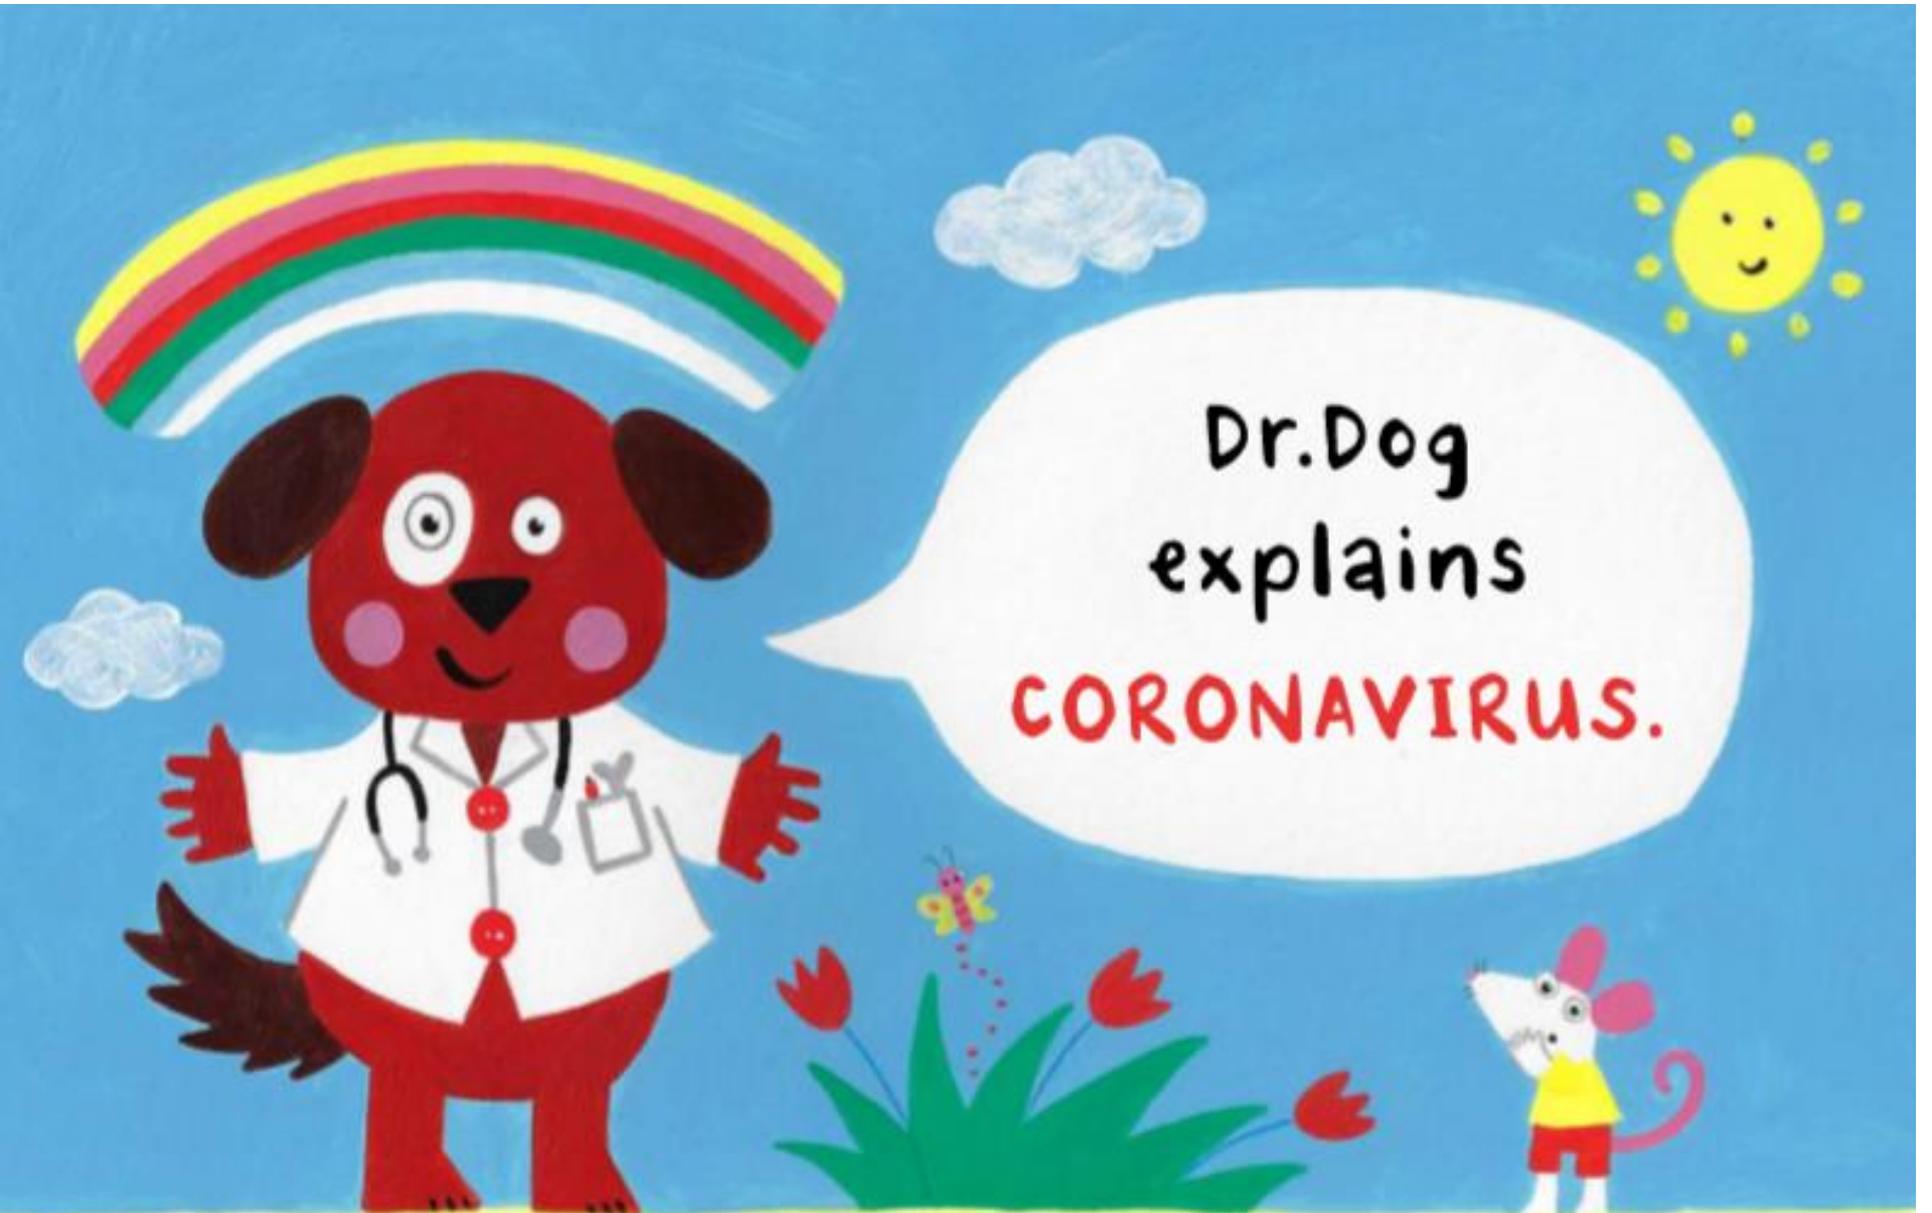

By
Battling schools across London with TTRockstars.
Running from: Monday 22nd June to Friday 26th June
Times: 2pm to 7pm

<https://play.ttrockstars.com/>

PSHE

Talking to the people in our household is always a good thing to do and helps us to understand some of the new things that are happening in our lives at the moment.

Dr. Dog
explains
CORONAVIRUS.

Professor James G Logan

The ARCTEC team at the London School of Hygiene
and Tropical Medicine

Lydia Monks

Illustrator

Hello, I'm Doctor Dog.
I'm going to tell you all you
need to know about

CORONAVIRUS.

What is
Coronavirus?

Coronavirus is a germ called a virus.
It causes a disease called Covid 19.
When this virus gets inside our bodies, it can
make us poorly.

The virus is so small
that it can only be
seen using a special
microscope.

It is so small that it can get
into our bodies when we breathe
in. It can also get into our
mouths from our hands.

The virus has spread all around the world.

Even I can't tell who has Coronavirus by looking at them. It doesn't make everyone feel poorly, but they can still spread it to other people. Children with Coronavirus don't get as sick as adults which is good news!

That's why most of us are having to stay inside.

Some people who catch the virus start coughing and become very hot. This makes them feel poorly. Most people start to feel better after a few days, but some people will have to go to hospital to be helped by a doctor like me.

HOW DOES CORONAVIRUS SPREAD?

When we cough!

When we sneeze!

From our hands!

Viruses can be passed on to other people when we cough or sneeze. If you have the virus and cough or sneeze onto a surface, those germs can stay on that surface for a long time.

Another way the Coronavirus can get into your body is from your hands. That is why it's important to keep washing your hands. Try not to touch your face or pick your nose!

COVER YOUR MOUTH WHEN YOU COUGH!

CATCH YOUR SNEEZE ON YOUR SLEEVE!

KEEP ON WASHING THOSE HANDS!

WHAT CAN WE DO?

When you are out and about, keep your distance.

The main way to stop Coronavirus from spreading is for all of us to stay at home. That means not going to school or nursery for a little while. Mums, dads and carers will have to stay at home too. Although some, like me, will have to go to work as we have important jobs to do.

Keep washing your hands!

All this will help to stop lots of people being ill at the same time.

Dr. Dog says...

COVER YOUR MOUTH
WHEN YOU COUGH!

CATCH YOUR SNEEZE
ON YOUR SLEEVE!

TRY NOT TO TOUCH
YOUR FACE.

DON'T PICK
YOUR NOSE!

KEEP WASHING
YOUR HANDS.

We can
do it!

TOGETHER WE CAN BEAT CORONAVIRUS!

Dr. Dog
