

Animals including Humans

Year One Knowledge Organiser

Key Vocabulary	
Mammals	Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby.
Amphibians	Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin.
Birds	All birds have a beak, two legs, feathers and wings.
Fish	Fish live and breathe under water. They have scaly skin, fins to help them swim and they breathe through gills.
Reptiles	All reptiles breathe air. They have scales on their skin.
Carnivore	Animals that only eat meat.
Herbivore	Animals that only eat plants.
Omnivore	Animals that eat plants and other animals.
Classify	Sort things which can be animals into categories. Categories is another name for groups or sets.

How can a zoo-keeper organise animals at London Zoo so that visitors can find them easily?
