

Year 3 Homework

Topic: What is the impact of the Roman Empire on us today?

Homework activities are intended to be as open ended as possible, allowing the children to reflect on their learning in class in a creative way and for the children to make their own decisions on how to collect, record and present their home learning. We know from research that all pupils have different learning styles – some are visual learners, others work well with words and writing, many learn best from practical hands-on activities e.g., through making things, art or music. We know that children's learning is maximised when they engage in activities using their individual learning styles. Each week your child will be expected to complete a homework grid task. They can answer the question or complete the task in their own preferred way on one or two pages and then upload onto google classroom. Here are some ideas of how children might approach learning grid activities:

- Drawing, colouring, sketches, labelled diagrams, artwork- painting, collage, 3D constructions
- Cooking with photographs or explanations
- Take photographs or even videos of their work
- Use the internet as a resource
- Tables, charts, and grids
- Writing fiction, poems, descriptions
- Writing non-fiction-report, diary, letter, journal, newspaper report, e mail, leaflet, debate, or explanation
- Invitations, postcard
- Your child can include objects or resources or references to them.

We hope you have fun learning.
