	EYFS	Year 1	Year2	Year3
Counting	count objects, actions and sounds. oount beyond ten verbally count beyond 20, recognising the pattern of the counting system	count to and across 100, forwards and backwards, beginning with O or 1, or from any given number count, read and write numbers to 100 in numerals; count in multiples of twos, fives and tens	count in steps of 2, 3, and 5 from 0, and in tens from any number, forward and backward	count from 0 in multiples of 4, 8, 50 and 100; find 10 or 100 more or less than a given number
Place Value	link the number symbol (numeral) with its cardinal number value compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity have a deep understanding of numbers to 10, including the composition of each number		recognise the place value of each digit in a two-digit number compare and order numbers from 0 up to 100; use and = signs	recognise the place value of each digit in a three-digit number compare and order numbers up to 1000
Representing Number	subitise: link the number symbol (numeral) with its cardinal number value. subitise (recognising quantities without counting) up to 5	identify and represent numbers using objects and pictorial representations including the number line use language of: equal to, more than, less than (fewer), most, least read and write numbers from 1 to 20 in numerals and words read, write and interpret mathematical statements involving addition(+), subtraction(-) and eauals (=) signs	identify, represent and estimate numbers using different representations, including the number line read and write numbers to at least 100 in numerals and in words	identify, represent and estimate numbers using different representations read and write numbers up to 1000 in numerals and in words
Number Facts (+/-)	automatically recall number- bonds for numbers 0-5 and some to 10 automatically recall! (without reference to rhymes, counting or other aids) number bonds up to5 (including subtraction facts) and some number bonds to 10, including double facts	given a number, identify one more and one less represent and use number bonds and related subtraction facts within 20	use place value and number facts to solve problems recall and use addition and subtraction facts to 20 fluently, and derive and us related facts up to 100	
Mental+/.		add and subtract one-cigit and two-0igit numbers to 20, including zero	add and subtract numbers using concrete objects, pictorial representations, and mentally, including: tu+u, tu+t, tu+tu and u+u+u show that addition of two numbers can be done in any order (commutative)	add and subtract numbers mentally, including: htu+u, htu+t and htu+h
Written +J.				add and subtract numbers with up to three digits, using formal written methods of column addition and subtraction

	I P o			
	EYFS	Year 1	Year 2	Year 3
Problems+/	explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed evenly	solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such 7 =0-9.	solve problems with addition and subtraction, using concrete, pictorial and abstract representations recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.	estimate the answer to a calculation and use inverse operations to check answers solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction
Number Facts (X/ +)			recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers	recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables
Written (X/+)			calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (><), division (+) and equals (=) signs show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot	progress to formal written methods calculations as above
Problems (XI+)		solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher.	solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts	solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected tom objects.
Recognising Fractions		recognise, find and name a half as one of two equal parts of an object, shape or quantity recognise, find and name a quarter as one of four equal parts of an ob-	recognise, find, name and write fractions 1/3, 1/i,.,2/4 and 3/4 of a length, shape, set of objects or quantity	count up and down in tenths recognise that tenths arise from dividing an object Into 10 equal parts and in dividing one-< I digit numbers or quantities by 10
Comparing Fractions				compare and order unit fractions, and fractions with the same denominators recognise and show, using diagrams, equivalent fractions with small denominators
Finding Fractions of Quantities				recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators recognise and use fractions as numbers: non-unit fractions with small denominators

	i amborough r	Tillially School Matils P	Togression Overview	
	EYFS	Year 1	Year 2	Year 3
Fraction Calculations			write simple fractions for example, 1/2 of 6 = 3 and recognise the equivalence of 214 and 1/2.	add and subtract fractions with the same denominator within on whole or example, 5n + 1n = 617]
Fraction Problems				solve problems using all fraction knowledge
Measures	compare length, weight and capacity	compare, describe and solve practical problems for: length/height, weight/mass, capacity/volume & time measure and begin to record length/height, weight/mass, capacity/volume & time	choose and use appropriate standard units to estimate and measure length height (m/cm); mass (kg/g); temperature (°c); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels compare and order lengths, mass, volume/capacity and record the	measure, compare, add and sub- tract lengths (m/cm/mm); mass (k g); volume/capacity (I/mI)
Mensuration				measure the perimeter of simple 2- shapes measure the perimeter of simple 2-d shapes
Money		recognise and know the value of different denominations of coins and notes	recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value find different combinations of coins that equal the same amounts of money solve simple problems in a practical! context involving addition and subtraction of	add and subtract amounts of money to give change, using bot and p in practical contexts
Time		sequence events in chronological order using language recognise and use language relating to dates, including days of the week, weeks, months and years tell the time to the hour and half past the hour and draw the hands on a clock face to show these times	compare and sequence intervals of time tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times know the number of minutes in an hour and the number of hours in a day	tell and write the time from an analogue clock, including using roman numerals from Ito xii, and 12-hour and 24-hour clocks estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight know the number of seconds in a minute and the number of days in each month, year and leap year
Shape Vocabulary			(vertices, edges, faces, symmetry)	identify horizontal land vertical line and pairs of perpendicular and parallel lines

				El
	EYFS	Year 1	Year 2	Year 3
Properties of 2.0 Shape	select, rotate and manipulate shapes in order to develop spatial reasoning skills. compose and decompose shapes so that children can recognise a shape can have other shapes within it just as numbers can		identify and describe the properties of 2-d shapes, including the number of sides and line symmetry in a vertical line. compare and sort common 2-d and 3-d shapes and everyday objects.	draw 2-d shapes
Properties of 3.0 Shape			identify and describe the properties of 3-d shapes, including the number of edges, vertices and faces identify 2-d shapes on the surface of 3-d shapes. Compare and sort common 2-d and 3-d shapes and everyday objects.	make 3-d shapes using modelling materials recognise 3-d shapes in different orientations and describe them
Angles				recognise angles as <b>a</b> property of shape or a description of a tum identify right angles, recognise that two right angles <b>make</b> a half-tum, three make three quarters of a turn and four a complete tum identify whether angles are greater or less than right angle
Position & Direction		describe position, direction and movement, including whole, half, quarter and three-quarter turns.	order and arrange combinations of mathematical objects in patterns and sequences. use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for Quarter, half and ½ turns	
Interpreting Data			interpret and construct simple pictograms, tally charts, block diagrams and simple tables	interpret and present data using bar charts, pictograms and tables
Extract Info from Data			ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity ask and answer questions about totaling and comparing categorical data	solve one-step and multi-step questions [for example, 'how many more?' and 'how many fewer?1 using information presented in scaled bar charts and picto- grams and tables

	Year 4	Years 5	Year 6
Counting	count in multiples of 6, 7, 9, 25 and 1000 find 1000 more or less than a given number count backwards through zero to include negative numbers	count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000 interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including 1 through zero	use negative numbers in context, and calculate intervals across zero
Place Value	recognise the place value of each digit in a four- digit number order and compare numbers beyond 1000 • round any number to the nearest 10, 100 or 1000	read, write, order and compare numbers up to 1 000 000 and determine the value of each digit round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000	read, write, order and compare numbers up to 10 000 000 and determine the value of each dig1it round any whole number to a required degree of accuracy
Representing Number	identify, represent and estimate numbers using different representations read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value	read Roman numerals to 1000 <b>(M)</b> and recognise years written in Roman numerals recognise and use square numbers and cube numbers, and the notation for squared (a) and cubed(')	
Mental+/-		add and subtract numbers mentally with increasingly large numbers	Perform mental calculations, including with  Perform mental calculations including mixed operations and large numbers mixed operations and large numbers
Written +/•	add and subtract numbers with up to 4 digits using the formal written, methods of columnar addition and subtraction where appropriate	add and subtract whole numbers with more than 4 digits, including using formal written methods	
Problems+/	estimate and use inverse operations to check answers to a calculation solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why	use rounding to check answers to calculations and determine, in the context of a problem, levells of accuracy solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why	
Number Facts (XI+)	recall multiplication and division facts for multiplication tables up to $12\mathrm{x}$ 12	identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers establish whether a number up to 100 is prime and recall prime numbers up to 19	identify common factors, common multiples and prime numbers
Mental (XI+)	use place value, known and derived facts to multiply and divide mentally, including: multiplying by O and 1; dividing by 1; multiplying together three numbers recognise and use factor pairs and com- mutativity in mental calculations	multiply and divide numbers mentally drawing upon known facts multiply and divide whole numbers and those in- volving decimals by 10, 100 and 1000	perform mental calculations, including with

1	10	10	10
	Year 4	Year 5	Year 6
Written (XI+)	multiply two-digit and three-digit numbers by a one-digit number using formal written layout	multiply numbers up to 4 digits by a one- or two-digit number using a fol'Illal written method, including long multiplication for two-digit numbers divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context	multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication divide numbers up to 4 digits by a two-digit whole number using the foITT1 al written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context divide numbers up to 4 digits by a two-digit number using the formal written method of short division where appropriate, interpreting remainders according to context
Problems (X/+)	solve problems involving multiplying and adding, including using the distributive law to multiplyo-dligit numbers by one digit, integer scaling 1 problems and harder correspondence problems such as n objects are connected to m objects	solve problems involving multiplication and division including lusing their knowledge of factors and multiples, squares and cubes solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign solve problems involving multiplication and division,	use their knowledge of the order of operations to carry out calculations involving the four operations solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why solve problems involving addition, subtraction, multiplication and division use estimation to check. answers to calculations and
Recognising Fractions	count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten.	recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number	
Comparing Fractions	recognise and show, using diagrams, Families of common equivalent fraction	compare and order fractions whose denominators are all multiples of the same number identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths	use common factors to simplify fractions use common multiples to express fractions in the same denomination compare and order fractions, Including fractions> 1
Finding Fractions <u>Of</u> Quantities Fraction Calculations	solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number add and subtract fractions with the same denominator		add and subtract fractions with different denominators and mixed numbers, using the concept of
	denominator	denominator and denominators that are multiples of the same number multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams	equivalent fractions multiply simple pairs of proper fractions, writing the answer in its simplest form divide proper fractions by whole numbers

1101 7		1/01 7	1/01 7 - 1
	Year 4	Year 5	Year 6
Decimals <u>as</u> Fractional Amounts	recognise and write decimal equivalents of any number of tenths or hundredths recognise and write decimal equivalents to 1/4, 1/2 and 3/4 find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths	read and write decimal numbers as fractions	decimal fraction equivalents (for example, 0.375) for a simple fraction identify the value of each digit in numbers given to three decimal places
Ordering Deciimals	round decimals with one decimal place to the nearest whole number compare numbers with the same number of decimal places up to two decimal places	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents round decimals with two decimal places to the nearest whole number and to one decimal place read, write, order and compare numbers with up to three decimal places	
Calculating with Decilmals			multiply and divide numbers by 10, 100 and 1000 giving answers up to three decimal places multiply one-digit number with up to two decimal places by whole numbers use written division methods in cases where the answer has up to two decimal places
Percentages		recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal	solve problems involving the calculation of percentages [for example, of measures, and such as 15% of 360) and the use of percentages for comparison
Fraction Problems	solve simple measure and money problems involving fractions and decimals to two decimal places	solve problems involving number up to three decimal places solve problems which require knowing percentage and decimal equivalents of ½, ¼, 1/, 215, 4/5 and those fractions with a denominator of a multiple of 10 or 25	solve problems which require answers to be rounded to specified degrees of accuracy recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.
Ratio & Proportion			solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts solve problems involving similar shapes where the scale factor is known or can be found solve problems involving unequal sharing and grouping using 1 knowledge of fractions and multiples.
Algebra			use simple formulae generate and describe linear number sequences express missing number problems algebraically

ar I	F	arnborough Primary So	chool Maths Progression	n Overview
3/				find pairs of numbers that satisfy an equation with two unknowns enumerate possibilities of combinations of two variables.
Meas	ures	Convert between different units of measure estimate, compare and calculate different measures, including money in pounds and pence	convert between different units of metric measure understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints estimate volume and capacity	solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate use, read, write and convert between stand ard units, converting measurements of length mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places convert between miles and kilometres
Mens	uration	measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres find the area of rectilinear shapes by counting, squares	measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres calculate and compare the area of rectangles (including squares), and including using 1 standard units, square centimetres (cm2) and square metres (m2) and estimate the area of irregular shapes	recognise that shapes with the same areas chave different perimeters and vice versa recognise when it is possible to use formulae area and volume of shapes calculate the area of parallelograms and triangles calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm3) and cubic metres (m3), and extending to other units.
Mone 3	y		use all four operations to solve problems involving measure [for example, length, mass, volume, money) using decimal notation, including scaling	
Time		Convert between different units of measure (e.g. Hours to minutes) read, write and convert time between analogue and digital 12- and 24-hour clocks solve problems involving converting 1 from hours to minutes; minutes to seconds; years to months; weeks to day	solve problems involving converting between units of time	
Shape	e Vocabulary			illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius
Prope	erties Of 2-D Shape	compare and classify geometric shapes, including quadrilaterals and triangles, based on properties and sizes identify line-s of symmetry in 2-D shapes presented in different orientations	use the properties of rectangles to deduce related facts and find missing lengths and angles distinguish between regular and irregular polygons based on reasoning about equal sides and angles.	draw 2-D shapes using given dimensions and angles compare and classify geometric shapes based on their properties and sizes

Year 4	Year 5	Year 6
complete a simple symmetric figure with respect to a specific line of symmetry.		
	identify 3-D shapes, including cubes and other cuboids, from 2-D representations	recognise, describe and build simple 3-D shapes, including I making nets find unknown angles in any triangles, quadrilatera I Is, and regular polygons
identify acute and obtuse angles and com- pare and order angles up to two right an- gles by size	know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles draw given angles, and measure them in degrees (·) identify angles at a point and one whote tum (total 360°); at a point on a straight line and ½ a turn (total 180°) identify other multiples of 90°	recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles
describe positions on a 2-D g1rid as coordinates in the first quadrant describe movements between positions as translations of a given unit to the left/right and up/down plot specified points and draw sides to complete a given polygon	identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed	describe positions on the full coordinate grid (all four quadrants) draw and translate simple shapes on the coordinate plane and reflect them in the axes.
interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs	complete, read and interpret infor- mation in tables, including timetables	interpret and construct pie charts and line graphs calculate and interpret the mean as an ave age
solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other araphs	solve comparison, sum and difference prob- lems using information presented in a line graph	use pie charts and line graphs to solve problems
	complete a simple symmetric figure with respect to a specific line of symmetry.  identify acute and obtuse angles and compare and order angles up to two right angles by size  describe positions on a 2-D g1rid as coordinates in the first quadrant describe movements between positions as translations of a given unit to the left/right and up/down plot specified points and draw sides to complete a given polygon interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs  solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other	complete a simple symmetric figure with respect to a specific line of symmetry.  identify 3-D shapes, including cubes and other cuboids, from 2-D representations  know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles by size  know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles draw given angles, and measure them in degrees (-) identify angles at a point and one whote tum (total 360°); at a point on a straight line and ½ a turn (total 180°) identify other multiples of 90°  identify describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed when the shape has not changed interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs  solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other
