Dear Parent/Guardian

We are in your child's school delivering the flu vaccination to Children/students whose parents have given consent.

If there are any changes in your child's health for example, they have had an increase in their asthma medication, taken steroid tablets in the last 2 weeks, or worsening asthma symptoms then you must let your school know to pass on the message to us.

Also, if they are unwell or if they have received the vaccination at your GP's surgery since completing the form, then please inform **the school** by 08.30am on the morning of the vaccinations (**Friday 8th November**) informing us of the changes.

Minor illness without fever is not a reason to postpone vaccination.

Yours sincerely

Immunisation Team - Bromley
