

Farnborough Primary School

TERM TWO — YEAR TWO

Welcome Back!

The Unicorns team are very excited about teaching your children this term. We are looking forward to all our learning journeys we will have together.

Thank you for your continued support,
Miss Morrison and Mrs Phillips

Madagascar v Greenland: which island would be easier to live on?

The children will be going on a geography adventure to Madagascar and Greenland. On both islands they will investigate their locations, weather, climate, animals that live there and much more.

After their extensive research they will then answer the 'Big Question' - Madagascar v Greenland: which island would be easier to live on with evidence to support their ideas.

We will be enjoying reading a variety of texts in the class together,

English

As readers and writers we will be exploring different types of non-fiction and fiction texts. This will enable children to identify and use the features of information texts, character descriptions, action and adventure stories and persuasive text which will lead to them writing their own. Reading will continue to be a focus in Year 2 with a particular emphasis on fluency and comprehension. Please continue to read with your child every night and discuss their understanding of the text.

Mathematics

As Mathematicians we will be reinforcing strategies used for the four different calculations of adding, subtracting, multiplying and dividing. We shall continue to practise our number facts (number bonds of all numbers to 20) and times tables (2,5 and 10). We shall be looking at statistics and measure. All of these skills will be developed through open ended and problem solving activities which will enable the children to draw upon their ever increasing knowledge.

Science

As Scientists our topic is Why are habitats so important to all living things? Children will be explore the difference between things that are living, dead and things that have never been alive. They will be able to identify that most living things live in habitats which are suited to them. Each habitat provides the basic needs of different kinds of animals and plants.

Computing

In Computing this term we will be looking at how we organise, store, retrieve written work and create animations. We will also continue learning about e-safety and the importance of communicating online safely and respectfully.

RE

As good citizens our focus will be on What is Right and Wrong? This will be seen through different religions. The children will look at making choices and the effect of good influences. We will discuss why Easter is an important time for Christians.

Dates for your Diary

Monday 6th January: Return to school

Friday 7th February—Dance Workshop

Tuesday 11th February— Safer Internet day

Monday 17th - Friday 21st February: Half term week

Monday 24th February: Back to school

WC 24th February—Scholastic Book Fair

Thursday 6th March—World Book Day

PE

As Athletes we shall continue to develop skills of hitting, catching and running during our outdoor PE lessons and gymnastics and dance in our indoor PE lessons.

Music

As Musicians we will be learning songs with a focus on rhythm, pulse and beat. We will also be using instruments to accompany the different musical elements.

P.S.C.H.E

As members of our community we will be considering dreams and goals. We will discuss how to stay safe in school and staying motivated when doing something challenging and how to have a positive attitude.

DT

As designers children will be building a rotating fairground wheel with a free-standing structure, made from junk materials. They will also make moving monsters. Exploring levers, linkages and pivots to construct and assemble a moving monster.

Support at Home

In Year 2, ALL homework will be given out on a Thursday, it should be returned by Tuesday.

Year 2 will have their spelling test on a Friday.

Please listen to your child read for at least 5 minutes every night.
